Made to your specification

A Signature layout is the starting point, not the finish.

Cabinet finishes

Choose a cabinet colour and finish to complement garden planting, natural stone, brickwork or contemporary paving.

Sintered-stone worktops

Select the surface and pattern from the Signature worktop collection. Confirm physical samples before ordering.

Appliance selection

Choose compatible grills, hobs, refrigeration, Kamado cooking, SUS304 sinks and mixers for your layout.

Bespoke layouts

Plan around your patio or courtyard. Ask about alternative footprints, cabinetry, an island or other project-specific requirements.

Confirm before manufacture

Approve your layout, finishes and appliances. Confirm UK delivery, garden access, service connections and appliance siting before manufacture. Ask about suitable covers, ventilation and seasonal care for your chosen configuration.

Catalogue sizes are nominal and shown in millimetres. L / R identifies the two runs of the corner layout. Final dimensions and installation clearances are confirmed on approved drawings.
